

## **THIS IS AN AUTOMATED MESSAGE - PLEASE DO NOT REPLY**

### **Application under Working Holiday Scheme**

Thank you for your application for a working holiday visa. We are processing your application and we will be able to tell you whether you are successful once you have met all of our immigration requirements.

### **Our assessment of your application**

We have completed an initial assessment of your application and you are required to provide a Chest X-ray Certificate (INZ 1096).

We have not made a decision on your application at this stage and invite you to either submit this certificate within 15 days, or contact us as outlined below.

### **Why is this certificate required?**

You are required to provide this certificate so that we can determine whether you meet our requirement to have an acceptable standard of health. For more information about this requirement refer to the relevant immigration instructions at [A4.25.1](#) and [WI2.1.1](#) and/or the [Health Requirements for entry into New Zealand](#) leaflet.

For your convenience, you are able to print the [Chest X-ray Certificate \(INZ 1096\)](#) form from the link in this email. It must be completed by a registered medical practitioner. Please check the list of [Panel Doctors](#) to see if you need to use an approved radiologist to complete the certificate.

Once the certificate has been completed, please write your application number 11754167 on the top right hand corner, and submit it to one of [our nominated branches](#). Please ensure that a radiologist's report is attached to this certificate. If abnormalities are present or indicated, the X-ray film or CD must also be sent with this certificate. **If the X-ray is clear, you should not send the X-ray film or CD.**

If you cannot provide the required certificate for any reason within 15 days, please contact [workingholiday@dol.govt.nz](mailto:workingholiday@dol.govt.nz) as soon as possible. If you are able to show a genuine and reasonable attempt to provide this certificate to us, such as a confirmation of an appointment with your medical examiner, or a receipt for an appointment you have attended but have not yet received results from, we will take this into account.

NOTE: You may need a referral for a chest X-ray from a registered medical examiner.

All supporting documents must be original or certified copies of originals and, if not in English, must be translated into English by a recognised and independent translation service.

### **What happens if you do not send any comments or additional information?**

If you do not submit a certificate **within 15 days**, we will make a decision on your application based on the information you have already given us, unless we have granted you an extension. We are unlikely to approve your application otherwise.

### **False or misleading information**

Providing false or misleading information or withholding information may make you ineligible for a visa.

### **Need help?**

Visit [our website](#) and search our information database or submit a question.

If you are in New Zealand, you can also phone the Immigration Contact Centre toll free on 0508

55 88 55 or from overseas on +64 9 914 4100. Immigration Officers are available to help between 7am and 7pm (NZ Time) Monday to Friday, excluding New Zealand public holidays.
